DIGIVID Mini-Bulletin

Welcome to our first DIGIVID Mini-Bulletin

We would like to introduce you to our DIGIVID Mini-Bulletin.

We aim to regularly inform our collaborators and supporters of what has been achieved and produced during the course of the project. In this first issue, we would like to give a brief overview of the activities of the first three months of the project.

What is DIGIVID?

The DIGIVID Erasmus+ Project is aiming at supporting (future) educators such as instructors in schools and universities and teacher-students in acquiring and developing digital skills and key competences to improve their (inclusive) online teaching and learning. To do so, we plan to develop the DIGIVID Curriculum based upon the DigComp 2.1 and DigCompEdu frameworks and enhanced with content for inclusive online teaching and learning strategies. Additionally, we will develop the DIGIVIDget – a teaching and learning widget that visualises the content of the DIGIVID Curriculum along learning goals (stating what skills/competences can/should be acquired) and, thus, making the DIGIVID Curriculum easily accessible to our target users.

DIGIVID News

DIGIVID Homepage
Our DIGIVID homepage is online:

1st DIGIVID Workshop at EC-TEL
Our first DIGIVID Workshop will take place on the 21st of September from 9:00 - 12:00.
In this workshop we would like to ask the participants to actively share experiences, reflect on lessons learned to improve your future practices in online teaching and learning. This includes also the digital skills you need to acquire during the pandemic and that you might improve for the future. More information can be found at:
https://www.tugraz.at/institute/isds/research/projects/digivid/digivid-ectel21-workshop/

FH eLearning Day
One day later, we will also present our learning goal widget at the FH Joanneum eLearning Day. In this workshop, we will discuss with our participants the benefit of the widget as well as further developments to improve online teaching and learning.
